

## HEART OF THORNS

Ángel M. Sancho & Guillermo Monje

+18

Forests are ancestral and dangerous places... Aldara learned that lesson by force. The forest of Urdi snatched the person he loved most in this world. Since then, many moons have passed and Aldara has grown into a shaman living in a cabin isolated from the world. One day, Tristan, the son of a disgraced nobleman, comes to his door for help to save his little sister from the clutches of the Urdi forest.
